2000 Series

Our 2000 Series Chair (three paddle) is a fully adjustable ergonomic chair. The seat/back tilts & adjusts independently of each other. The seat & backrest are manufactured with molded contour foam and have been ANSI/BIFMA tested & certified.

1000 Series

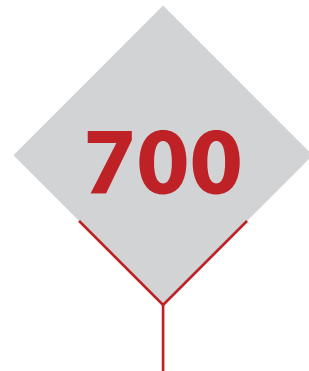

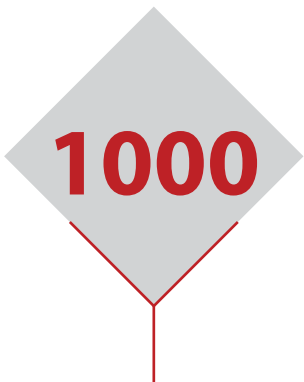

The 1000 Series Chair (two paddle) is an adjustable ergonomic chair. The seat adjusts up/down & the backrest has a deluxe tension tilt adjustment.

500 Series

Our 500 Series Chair (single paddle) is our most economical chair. Medium density 2.5" thick foam for both the backrest & the seat. This has been ANSI/BIFMA tested & certified.

Mesh Back

About WSI

Our philosophy has been simple: Define our customer's wants & needs. Produce quality workstations & seating within reasonable cost & lead time. Our hands on customer service assures that our customers are totally satisfied with the product design, quality & workmanship, from start to finish.

700 Series

Designed for long term seating & lasting use in the toughest working environment. The 700 Series is designed with ergonomics as the prevailing feature, improving productivity & reducing body fatigue. This rugged self-skinned polyurethane seat & back is resistant to stains, grease, water, punctures & chemicals.

Mesh Back Series

Our Mesh Back has a simple & clean look that offers extraordinary comfort at an affordable price. It is one of the most comfortable mesh backrest available today.

Workstation Industries has been a progressive manufacturer in the Lab & Technical Furniture industry since 1995.

Our basic philosophy is simple: Define our customer's wants and needs. After that, we produce quality workstations and seating solutions at a reasonable cost and lead time.

Our hands-on customer service assures that our customers are totally satisfied with the product design, quality and workmanship, from start to finish.

We manufacture all of our products on site in over 25,000 square feet of manufacturing space **IN THE UNITED STATES OF AMERICA.**

This provides us the opportunity to control 100% of the manufactured product, thereby offering our customers one of the best lead times in the industry.

We fabricate all our sheet metal components, weld up all our frames, laminate our work-surfaces and powder paint all our finished goods. We have CNC sheet metal and wood working equipment and our products are UL Listed for structural integrity and electrical safety.

By controlling all facets of manufacturing, we afford our clients the luxury of custom designs and/or modifications within our existing product line while maintaining competitive pricing and outstanding lead times.

**At Workstation Industries
no job is too small or too large.**
