About Us

Durcon's work surface, sink and accessory systems are the materials of choice for harsh laboratory, classroom and research environments because of the material's outstanding chemical resistance, durability and non-flamability.

The consistent quality of Durcon products is the result of well-engineered designs, superior service and top-notch manufacturing. Plus, Durcon adds value through innovation. We continually fine-tune our product and our process in order to respond to and anticipate the needs of this industry.

Durcon is ISO certified and our products meet the rigorous requirements of Greenguard and Greenguard for Children and Schools as well as the NSF certification for use in food areas.
